

INDIVIDUAL ASSISTANCE THAT RESTORES, REBUILDS AND RESPONDS.

National EMR doesn't just deploy resources; we deliver outcomes. We move fast, scale services, integrate into existing systems and lead with purpose, to ensure communities recover stronger.

When disaster strikes, National EMR activates alongside our government partners, delivering critical and scalable Individual Assistance – and immediately connecting and building the confidence survivors want and need in order to know that they are going to rebuild and recover from today's challenges.

Whether called upon directly by states or local communities, we step in to bridge critical gaps to provide:

- **Emergency Housing Support:** Coordinating turnkey temporary shelters, short-term housing solutions, and repair assistance.
- **Disaster Recovery Access Points:** Establishing disaster registration call centers and mobile and fixed recovery centers to help survivors apply for assistance, ask questions, and access critical services.
- **Community Outreach & Registration:** Deploying field teams to support survivor registration in displaced, rural, and underserved communities.
- **Medical & Behavioral Health Response:** Delivering crisis counseling, urgent care, and wellness services to stabilize and support affected populations.
- **Case Support & Recovery Navigation:** Providing one-on-one assistance to guide individuals through the recovery process—from addressing immediate needs such as food and shelter to insurance and rebuilding.

TRUSTED TO
DELIVER
INDIVIDUAL
ASSISTANCE
SINCE 2015.

READY TO DEPLOY IN 12-48 HOURS.

NationalEMR.US | 1 (800) 337-0373 | SPEED. TRUST. RESULTS.
